

Case Study: Contrasting Geology of two areas of Coast, Harlech and St David Peninsular

St David's Peninsular

Why is St David's Peninsular around St Bride's Bay an example of a discordant coast?

Why do discordant coasts result in the formation of headlands and bays?

Watch the video on West Wales bays and headlands and annotate the following diagram with more detail on the geology and specific types erosion features.

Describe the type of mass movement that helps speed up the rate of erosion in St Bride's Bay.

Harlech

Why is Harlech an example of concordant coast?

What coastal features have developed along this area of coast and why?

Watch the video on the West Wales Spits (Harlech Spit) and annotate the following diagram with more detail on the geology, coastal features and processes.
